Power Saving Tips

Charging Battery

- To fully charge your Reader, continue charging until indicator shows completion of charge (≥ 12).
- Charging a completely depleted battery will take 3 hours when connected to the USB port of a powered on computer, 2 hours when connected to the optional AC adapter (PRSA-AC1).
- Operating your Reader while charging with the optional AC adapter may extend time to fully charge depending on how the Reader is being operated.

Recommended Temperature

Please use your Reader within the recommended operating temperature range (≥ 19).

More power requiring operations .

The following cases may consume more power.

- 👸 Graphics intensive content
- Photo slideshow with a short duration
- ePub and PDF files partially conforming to document standard
- Annotation, keyword search and dictionary search functions

Tips to save Power

- If you do not use the Reader for more than one day, power off the Reader completely (≥ 8,86).
- Do not leave the Reader uncharged for a prolonged period of time. This may reduce the charging capability.
- We recommend the optional AC adapter (PRSA-AC1). The performance of any third party charger is not guaranteed.
- Please keep the Reader at normal temperature operation (≥ 19).

How to Get eBooks

To purchase and transfer eBooks to your Reader, please carry out the following initial steps.

- **1** Install Reader[™] Library software.
- **2** Create an account at your Reader Store or your eBook store.
- **3** Purchase and download eBooks.
- 4 Authorize your computer and Reader.
- **5** Select and transfer purchased eBooks to your Reader.

After the initial steps, you only need steps 3 and 5 to enjoy more eBooks. Reader comes with step-by-step instructions describing the above initial steps. Here is how to access the instructions.

PC: From the "Start" menu, click "My Computer" ("Computer" in the case of Windows Vista, Windows 7) and then double-click the "READER" drive. Drag the "How to get eBooks on Reader" file and drop it on the desktop.

Mac: Double-click "READER" on the desktop, and drag the "How to get eBooks on Reader" file and drop it on the desktop.

Double-click the file to open it and follow the step-by-step instructions.

[Power Management]

Power management helps avoid unnecessary battery consumption.

Power management operates as follows:

- After 10 minutes of inactivity, the Reader enters the sleep mode automatically and battery consumption is minimized.
- After two* days of inactivity, the Reader automatically shuts down and stops consuming battery power.
- * If battery power is at a low level, the Reader will shut down within two days of inactivity.

Note

- The Reader does not enter the sleep mode after 10 minutes of inactivity even if [Power Management] is set to [On], when:
 - connected to a computer using the supplied USB cable
 - charging with an AC adapter (PRSA-AC1) (optional)
 - when a slideshow is set

[Device Lock]

Locks the Reader by setting a pass code.

Tap [On] to set a pass code.

Input a 4-digit number by tapping the numeric key pad.

Tap [OK] to lock the Reader.

To unlock, input the pass code and tap [OK]. Then tap [Off] to unlock the Reader, and tap [OK].

Notes

- [0000] is the factory setting.
- You are recommended to make a note of your pass code and keep it in a safe place separate from the Reader.
- If you forget your pass code, contact your Sony Customer Support (≥ 18); however, note that in unlocking your device, all content on it will be erased.
- When the [Device Lock] setting is activated, the Reader will not be recognized by your computer, please set to [Off] before connecting.

[Standby Screen]

Sets the standby screen during the sleep mode. [Off] displays nothing in the sleep mode.

- [Show picture]: Set [On] to show the selected pictures on the standby screen. For details on setting the pictures, see "To set as a standby screen" (≥ 84).
- [Show message]: Set [On] to show messages on the standby screen.

[Restore Defaults]

Restores the Reader to its default settings. You will need to perform the initial settings after restoring.

[Clear Keyboard History]

Deletes predictive words for the on-screen keyboard.

[Format Internal Memory]

Formats the internal memory of the Reader. Formatting will erase all the contents in the storage.

Note

 Before formatting, make sure to backup data you wish to keep to your computer via Reader Library. Note that protected content will also be deleted by formatting.

Troubleshooting

If the Reader does not function as expected, try the following steps to resolve the issue.

1 Reset the Reader by pressing the RESET hole with a small pin or clip → after 5 seconds, slide the power switch to restart the Reader. The content and settings stored on the Reader are not affected by resetting.

Notes

- The bookmarks, highlights, handwritten memos, or the setting information may be deleted by resetting.
- The screen will not change after pressing the RESET hole. Slide the power switch to restart the Reader.
- Do not push the RESET hole with a breakable point, such as the graphite of a mechanical pencil. It causes the RESET hole to be blocked.
- **2** Check the symptoms list (\ge 94).
- 3 If it is an issue regarding Reader Library, check for information in Reader Library Help.
- 4 Look for information on the support Web sites (≥ 18).

Symptoms

Power

Battery cannot charge.

- → If [Charging stopped] is displayed on the screen, check the conditions to charge the Reader again (≥ 12). If charging the Reader by connecting to your computer, make sure your computer is powered on.
- → Charge the battery within the temperature range of 41°F to 95°F (5°C to 35°C) (≥ 19).

Battery life seems short.

- → The operating temperature is below 41°F (5°C). This is due to the battery characteristics and not a malfunction.
- → The Reader is discharged automatically even when not in use for a prolonged period. It is recommended that you charge the Reader again before turning on the Reader.
- → The battery was not been given enough time to charge fully. Charge the Reader until the charge/busy indicator turns off. (The battery icon does not indicate remaining battery power during charging.)

→ By sliding the power switch, the Reader enters sleep mode in which the battery power is consumed slightly. To minimize battery consumption, before entering the sleep mode, slide and hold the power switch for more than 3 seconds to shut down the Reader.

The Reader cannot turn on.

- → Moisture condensation may have occurred. Wait for a few hours and then turn on the Reader.
- → Battery power has been fully depleted. Charge the Reader by connecting to the computer via the supplied USB cable (≥ 12).

Screen

Display takes a long time to appear.

- → In a cold place such as outdoors, it may take time for the display to appear. This is due to the display characteristics and not a malfunction.
- → It may take a few moments for the Reader start-up screen to appear after a reset or shutdown.

The screen is frozen.

→ Reset the Reader by pressing the RESET hole. Then, slide the power switch to turn on the Reader again (≥ 8).

Touch operation is not effective.

- → If condensation occurs in the touch screen, or dust attaches to the touch screen, it may cause a malfunction. For details, see "On Cleaning" (≥ 108).
- → If any objects are placed on the touch screen, it may cause a malfunction. When not in use, leave the Reader in sleep mode, or shut it down.

Reading contents

A book cannot be read.

→ If the book has an expiration date, confirm whether the book has already been expired (≥ 37).

A book that has been transferred from your computer cannot be read.

- → Either the Reader, your computer, or both may not have been authorized by Reader Library, refer to Reader Library Help (≥ 17).
- → You may have tried to read the content owned by another user. The content owned by another user may not have been authorized.
- → The authorization data may have been damaged as a result of shutting down while reading a content. Deauthorize your computer and the Reader, then authorize again via Reader Library. Refer to Reader Library Help for further information.

Table of Contents

- → The book may be protected by unsupported digital rights management. Check the book source for compatibility.
- → The book may contain an unsupported file format. Check the file format compatibility (≥ 113).

[Continue Reading] does not work, or bookmarks are missing.

- → If the file status has changed (such as in the following cases), data on [Continue Reading] or notes may be deleted.
 - A Text/RTF/PDF file is edited.

You cannot find a transferred book.

- → Protected content on the Reader can be deleted if it is deleted from your computer after being connected. It is recommended to manage content using Reader Library.
- → Books being transferred to the Reader by synchronization are deleted automatically if the same books are deleted in Reader Library before synchronization. For details, refer to Reader Library Help.
- → Do not delete folders or files from any of the "database" folder in the Reader. The content or notes may be deleted.

Viewing pictures

A picture cannot be displayed.

- → Picture files that are not supported by the Reader cannot be viewed. For details on supported picture files, see "Supported File Formats" (≥ 113).
- → A large file size of picture may not be displayable, and its file will not appear in the list. Delete the picture file using Reader Library.

Table of Contents

Connection to the computer

The Reader cannot be operated.

→ The Reader cannot be operated when connected to a computer via USB.

The Reader cannot be recognized by your computer.

- → A USB hub or USB extension cable is used for the connection. Connection via an extension cable or USB hub is not guaranteed. Connect the USB cable directly to the computer.
- → Disconnect the USB cable from the Reader, then reconnect it after a while.
- → If the Reader is locked, it will not be recognized by your computer, set [Device Lock] to [Off] (≥ 90).
- → While the Reader is connected to a computer, do not turn on, restart, wake up from sleep mode, or shut down the computer. These operations may influence the Reader unrecognizable by the computer. Disconnect the Reader from the computer before performing these operations.
- → Use the supplied USB cable.
- → There may be a malfunction with the USB port on your computer. Connect the supplied USB cable to another port on the computer.
- → It may take a while for the software to be recognized by the computer. Wait for a moment.

Table of Contents

→ If none of the above solves the problem, press the RESET hole of the Reader (≥ 93), turn on the Reader again, and then reconnect the supplied USB cable.

Content cannot be transferred to the Reader from your computer.

- → There is not enough free space on the Reader memory. Check [About] (≥ 86) for free space on internal memory, then delete unnecessary data.
- → The Reader is not authorized. Authorize the Reader using Reader Library. Refer to "Authorizing Your Computer and the Reader Device for eBook Stores" in Reader Library Help.

Reader Library does not recognize the Reader.

→ Disconnect the USB cable from the Reader, then reconnect it.

The Reader becomes unstable while connected to a computer.

→ A USB hub or USB extension cable is used for the connection. Connection via an extension cable or USB hub is not guaranteed. Connect the USB cable directly to the computer.
